American Oil goes to Japan. There has been no effort to stop it. What lies behind this aid to the Mongol Barbarians who are overrunning civilized China? What must the average intelligent American think? Here's what a Chinese girls in New York thinks. She wrote this to the Christian Science Monitor:

Three years ago this month you published my letter in which I stated that "Japan's commercial structure, so dependent upon international good will, is too involved to be safe during the economic crisis she will face."

That statement is still true, and possibly that accounts for the fact that British and American oil companies sell all the oil and gasoline to the sons of Nippon they possibly can. At the present time the United States is shipping to Hirohito approximately 100,000,000 gallons of "gas and oil, including aviation gasoline, every three months.

No sane person has any doubt as to the use to which that mass of petroleum products are put, especially when we realize that practically all of the motors in Japanese airplanes are of British or American make.

China has been waging an undeclared war for decency and democracy ever since the illegal seizure of Manchuria ten years ago; and for every British, Greek, Polish or Yugoslav soldier who has laid down his life in this present world struggle, ten Chinese soldiers have died.

This American-born Chinese girl, a Christian, finds it exceedingly hard to reconcile our "lip service" against aggressor nations with what we actually do by way of providing these bandit nations with the sinews of war.

New York. (Miss) Chiu Chun-Mui

The hopes of 6000 peolpe cling to the words of the Chamber of Commerce and its efficient manager, W. F. Paden. Day by day, in every way, they want to know more about the military airport. The Chamber of Commerce under new impetus following the new year, really and truly acted like a good chamber of commerce during those furious days. Its work stands out and it is safe to say that no similar body every presented its case in quicker time or more impressive. Now its just a matter of waiting on the government. A little hope is worth much in the interim. It can be said Cameron has as much chance as any other Texas community. Having got off to a good start the Chamber of Commerce should not lose its wind. There is much to do. Whether or not we get the airport, it was good practice. Something happened to the old Chamber. It got a new lease on life. When there is work to do a shot in the arm is worth more than a long day of sleep. Now that the Federal Government has stepped up its domestic plans to the extent of stabilizing the prices of many farm commodities, among them livestock and poultry, is it too small a thing to look after the millions that are ours for the price of a small effort. Cameron needs and must have a large commercial hatchery. It must have a five year program of expansion in poultry production. It would have as a natural consequence a market. Cameron must have something to offer stockmen. An annual show, an auction, a breeders association, a Hereford sale, or something to capitalize on the value of this great industry. There are more cattle per capita in Milam county today than at any time in the past 40 years. The President whose year of service sees these things done by the Chamber of Commerce, will have made the greatest contribution to community progress in a generation.

Putting an end to hesitation is the duty of one man alone. He is the President of the United States. This whole business of the war is serious with the great majority of American people. Opinion wherever expressed is enlightening. Here's a letter from Katherine Hayden Salter published in the Christian Science Monitor:

At the time of the Munich pact, most of our Christian idealists in this country and England backed Chamberlain. But I wonder if anyone can even count the deaths that

G. W. CLORE DIES AT HOME IN CAMERON

G. W. (Dad) Clore, 88, widely known local citizen and pioneer, died Tuesday evening, May 20, 1941, at his home in Cameron at 10:40 o'clock.

Mr. Clore had been in declining health for several months and while his condition was known to be grave his death came without warning to the people of the city.

During recent months Mr. Clore had not been able to be about the streets where daily he conversed with friends and passed the word with good Irish wit. He was a daily reader of the Midget Daily and always waited for a copy when the publication was delayed.

Funeral services were held at 3 p. m. Wednesday, May 21, 1941 from the Green Funeral Home in Cameron. Interment was made in Oak Hill Cemetery with the Green Funeral Home directing arrangements.

Pall bearers were: W. DuBois, W. H. Lucas Andrew Esslinger, B. L. Archer, W. W. Markham and Wright Price.

Mr. Clore was a native Born American with Irish forebears who came from Ireland. He grew up in an atmosphere of pioneering and often told interesting stories of the old days in Texas, on the prairies and in the budding towns that sprang up with the advent of the railroads.

A frequent visitor to the Herald plant, Mr. Clore, once told of how as a child he was fired on by Northern soldiers as he played in an orchard near his home in Kentucky. "We ran for our lives," he said. The bullets fell all around them. He said he did not get a very good impression of Lincoln's soldiers. Too young to be a soldier he grew up in the days of reconstruction and soon found his way to Texas.

In the early days in Lee county he knew most of the bad men of his time. He saw Wild Bill Longley hang at Giddings. A carpenter, he helped to make the casket. Longley, he said was a very handsome man and was dressed in the heighth of style the day he was dropped through the trap door.

An uncle drove away with the body in a wagon. There has always been a persistent story that Longley was not dead. "I saw them put him in the box," said Dad Clore that day he told the story. While Longley was in jail Mr. Clore lived there and did guard duty.

He lived at Muldoon in the early days. He had been a resident of Cameron for many years.

Surviving are his widow, now aged, a son Lee R. Clore, prominent business man, fraternalist and a member of the Selective Service Board, and one daughter, Mrs. Moody Hays.

The Peter Company pioneer in the produce field here, left Cameron some 15 years ago, and is now returning.

The Peter Company will open a produce house in a new building, construction on which was begun this week at the plant of the Cameron Ice & Cold Storage Company.

Hayden Lawrence, owner of the company, is constructing the building on property of the company near the storage vaults and the company will have access to the facilities of the storage company.

The building is 50x100 feet and will be used for the offices and intake of the produce company. Cameron will have four large produce buyers, a tribute to the local market. The poultry industry has shown great expansion in recent months. With the price of poultry and eggs stabilized by the United States government as a part of national defense, good prices are anticipated for several years.

Unprecedented demand for chickens has resulted from the examples of profits taken from the business by hundreds everywhere in this section of Texas. Local hatcheries are running at capacity and other hatcheries are shipping in baby chicks.

HITLER BEATS ROOSEVELT TO DRAW IN WEST AFRICA

Nazi Germany beat the United States to the draw Saturday.

Soldiers, airmen and technicians of Adolph Hitler were reported pouring into Dakar in Senegal off the West Coast of Africa.

The Nazi are now in 1500 miles of the South American coast.

Two weeks ago Senator Pepper of Florida urged the United States to seize Cape Verdi, the Azores Islands and Dakar.

France has lied. She said no permission was given to the Germans to use her territories. German troops are moving into French mandated Syria. The French did not protest. The French protested to the British because the RAF had bombed German airdromes in Syria.

Free movement of German troops into Dakar which is in French territory off the west coast of Africa was regarded as the final stage of the German expansion southward.

Washington was stagnated as usual.

Nazi forces in Irak have been attacked by the British. The Germans have driven back the British in Egypt.

President Roosevelt said conditions were too critical to say what would be done under any circumstance. The foreign policy of the country is being formuated from hour to hour as developments occur. He said the navy would act first and then he would talk about it afterwards.

Secretary Knox of the Navy, in a speech in New York, last week, urged action to seize these far Atlantic bases. The United States Navy held the Azores in the world war as an operating base.

Considerable national interest was being manifested in the forthcoming national draft of all civilians. The plan which is due to reach President Roosevelt on Monday is far reaching and will affect virtually every man, woman and child in the country.

It was estimated that there are 2,300,000 young men who have become 21 years of age since October 1940 who will be called to register around July 1st.

CATHOLIC YOUTH

Approximately 100 members of the Catholic Youth Organization of the Waco District enjoyed a picnic at the Wilson-Ledbetter Park Sunday afternoon, May 18th.

After the picnic a social was given at the Country Club, which was decorated with Queen Ann's lace, poppies and roses.

Refreshments were served during the social hours, which were from 7:30 to 10:30 p. m.

Miss Berenice Killen of Waco, spent Mother's Day here with her mother, Mrs. Mable Killen.

MOTHER OF SAN GABRIEL WOMAN IN DEAD

Funeral Services for Mrs. Frank Gutherie, 90, were held at the home of her daughter, Mrs. Edgar Cast in San Gabriel at 2 p. m. Monday afternoon.

Mrs. Gutherie, a resident of Lampasas, died Saturday following a short illness. The Sloan Funeral directors will be in charge of funeral arrangements and burial will be made in the Locklin cemetery, beside other relatives. The Locklin cemetery is at San Gabriel.

Survivors are two daughters, Mrs. Edgar Cast and Mrs. Pearl Clark; and four sons, Jim Guthrie of Corpus Christi, Albert Gutherie of Temple, Hugh Guthrie of Dallas, and Tom Guthrie of San Diego, Calif., and Several grand chidren.

She has visited San Gabriel often and has many friends here who are grieved to hear of her death.

42 LEISURE CLUB

Mrs. Arnold Jurgens of Burlington was hostess to the "42 Leisure Club" last Thursday afternoon and one visitors Miss Ellie Juergens, sister in law of the hostess was present.

The decorations, prizes, tally cards and score pads were in "Patriotic colors. Games of "42" were played with Mrs. Leo Laake holding high, Mrs. Jaohn Matyastik, second high, while "84" prize went to Mrs. L. F. Slama.

Noted Temperance Leader for Senator Will Speak Here

Sam Morris, nationally known Temperance leader, a candidate for United States Senator, will speak in Cameron at 2:30 p. m. on Friday June 13th, it was announced here Saturday by H. E. Graham who received a letter from Mr. Morris.

Over the radio Mr. Morris is known as the Voice of Temperance. He wants to succeed the late Senator Morris Sheppard who was the Nation's No. 1 dry leader and author of the 18th Amendment.

Additional announcements will be made regarding his visit here.

Boys Are Wanted for Sheet Metal and Iron Working Classes

Henry Rreyer has made a trip to Houston on business to purchase tools and machine equipment for sheet metal work and blacksmith training for National Defense.

He said he had found and bought enough equipment to begin training the boys at once. Dreyer and Slama have been teaching boys beginning May 5th and have had good classes. Mr. Dreyer has shown his interest in the program to the extent of using his shop to keep the boys going pending arrival of additional equipment.

The boys are taking much interest in the school and are doing fine. Mr. Slama is a very capable man also to teach blacksmithing and iron work. He has shown much interest along with Mr. Dryer.

Mr. Slama has been handicapped for lack of tools and machinery but the boys will be glad to know that the tools and machinery are here.

More boys are needed in these classes. Some 15 or 20 more boys are needed to learn sheet metal working and iron working. It costs the boys absolutely nothing to learn this work. They will like the work under these instructions. The Meeting time is 7:30 to 10:30 and five nights each week. No classes are held on Saturday and Sunday nights.

Mr. Dreyer and Mr. Slama issued the following appeal to the people: "If you know of any boys who may be interested in taking up this work let us know at once. Don't postpone this important opportunity. Start Monday night, you can't lose."

Prize Awards To Be Made for Essays On Defense Stamps Here

A first award prize of seven dollars worth of Defense Savings stamps, and a second award of three dollars worth, will be awarded to students who submit the best theme or essay on "Why I Should Purchase Defense Savings Stamps, by the Cameron Lions Club.

Students participating in the contest must purchase at least one stamp of any value in order to be eligible.

Cameron Lions are working hard to create interest in the purchase of stamps by the public. The committee on Patriotism and Citizenship proposed the program and details are being worked out for further progress in the campaign here.

Those interested in the contest should get in touch with Lions Club officials for information. It is hoped that every student will write a theme on the subject and thus acquaint themselves with Uncle Sam's efforts toward national defense.

Price Cuts on Bread Drives Out Cameron Bakery; Is Big Loss

Cameron Maid Bread was no longer baked in Cameron today as the bakery, owned and operated by Harry W. Tag, was closed on Saturday night.

Mr. Tag disposed of the equipment in the bakery and has retired from the business. Recent price cuts in bread together with competative obstacles made it impossible for the business to prosper.

Cameron, a city of 6000 people, is without a bakery, for the first time in many years. Failure to patronize home industry is reponsible for this loss to the city.

The people must now realize that no local industry can survive as long as money is spent for the same products in another city.

Miss Alma Jean Gunnels of Pin Oak visited in Cameron Saturday.

Mrs. John P. Howard of Lubbock, is here on a visit with her sister, Mrs. Perry Wilkerson. Mrs. Howard was reared in Cameron and many friends are pleased to welcome her return visit.

Ralph McLerran of Beaumont spent the week end in the home of his parents Mr. and Mrs. A. R. McLerran.

E. A. Camp of Rockdale transacted business in Cameron Monday.

Mr. and Mrs. Fred Hodges of Burlington shopped in Cameron Saturday.

All that a devout imagination can picture of heavenly beauty—all that great faith can reconstruct from the Revelation of its glorious happiness—is found in this great hymn of Bernard of Cluny. Little of the original exuberance is lost in this translation of Dr. John Mason Neale.

have been the result of that pact! Who can say how many of those Jews who recently drowned in the waters of the Mediterranean are dead because at Munich Hitler was turned loose in the Balkins? How many young Czechs have been killed, or have died of malnutrition, or heartbreak, or open resistance to the intolerable; how many young men have been forced into slave labor in the Skoda arms plant, making bombs to kill British civilians? How many people have died in Czechoslovakia because their means of subsistence was taken away by brute force? Nearly $4,000,000,000 worth of Czech belongings were looted by the Germans, not counting the ammunition, etc. As for the death in Poland, made possible partly by the complete breaking down of the Czech defense line—who can count them,

Christians are going to be involved in tragedy these days, no matter which side they ally themselves with. Pacifists may be willing martyrs themselves—but they don't martyr merely themselves; they pave the way for thousands of other innocent deaths.

The question seems to be something like this: Are men going to fight out in the open—trained soldiers fighting trained soldiers; or are people going to take no stand—which means collaboration with the aggressor, making it possible for him to go on with his killing of those not in a position to defend themselves?

Veterans of Foreign Wars to Sell Poppies Saturday, May 24th

Veterans of Foreign Wars in Cameron will sell poppies on Saturday, May 24th.

R. P. Bennett, Adjutant of the Post, has received a shipment of the Poppies made by wounded war veterans.

These Poppies differ from the Poppies that are sold annually at Armistice time by the American Legion. They are patented and are said to wholesale for a higher price.

The local chapter, Veterans of Foreign Wars, is one of the few active posts in this section of the state. It is the only such post in the county and is named for Ben Milam, Texas Hero.

Every penny of the money from the sale of the Poppies goes to the veterans. They make and sell Poppies to support themselves and their families.

Six girls have been asked to make these sales. They will wear new caps and arm bands.

Klinnard Gets Three Years in Prison But "Suspended Sentence"

William Klinnard, charged by indictment with assault with intent to murder, following a knife attack on Roy Seaton on March 22nd, was convicted and given three years in prison Saturday by a jury in district court here.

The sentence was suspended by the jury. Klinnard was freed as a result.

Judge Graham Gillis, lectured the defendant, a course he rarely follows. Klinnard's wife and four children sat beside him in the court room. The judge solmnly reminded Klinnard that he should have been thinking of his wife and children on that night when he engaged in the attack on Seaton. If, said the judge, he had been with his family he would have escaped the trouble.

The knife attack occured near the Bartek place at the western edge of the city. Seaton testified that he was attacked by Klinnard and Robert Haplain who invited him to go for a ride. He said he heard footsteps behind him and the next thing he knew he was cut with a knife across the back of the neck.

Halpain, according to Seaton cut him in the left side of the throat and was found on Seaton stabbing him by officers. Klinnard was standing near Seaton's feet. In his pocket the officers found a bloody knife.

Halpain is yet to be tried. He was first arrested for the crime. Later it developed that Klinnard had taken part in the fight.

All men were said to have been drinking some.

WITH THE BAPTISTS

Our Sunday School attendance Sunday was most commedable. Out of 576 enrolled, there were about 325 present. We are proud of this increase and we want to keep on the upward climb. Our S. S. offering was $109.06. The morning service was also well attended. It was our "I Am An American Day." All those who made a contribution—for the soldiers—received a flag. The offering taken for the Army Camp Chapels amounted to $20. We feel that we have gone a long way in bringing God's Word nearer the hearts of our soldier boys. We enjoyed the music and good singing of the morning service, which was directed by Mr. C. E. Archer. Mr. Archer is offering his service as one of our assistant church workers.

The Sunday School Conference at Walker's Creek last Sunday afternoon was a great step forward in the Cause of God. It was attended by a number of Baptist Churches, of which we are proud to claim the banner for attendance. There were over 60 of our church folks at the Conference, the largest number by far and this is largely due to the good work of Carl Cain.

If you were not with us in our last Sunday evening service, you missed an inspirational sermon in song and a very beautiful Pantomime depicting the worship and adoration of our Heavenly Father. The song-sermon was led by Mr. Archer. Verses of Scripture were read through this service, and there was a lifting missionary message brought in song. The Pantomime, given by the YWA of our Church, was very pretty and effective production. There were good direction and well-played parts in this Pantomime "O Zion Haste." The Church auditorium was full and everyone took a part in the service. Though there were no additions we feel that a deep and holy message from God was brought to the hearts of each present.

A decision was made at Deacons meeting last Wednesday regarding the coming of Mr. C. E. Archer as one of our assistant church workers. Next Monday night, May 26, 7:30 the monthly Training Union Business Meeting will be held. All directors and sponsors are urged to be present for this most important meeting.

The Daily Vacation Bible School Study course was held for three nights of intensive study and preparation. We are making plans for a good Bible School and we are going to have a good one. Are you taking part? Sunday School 9:45; Morning Worship 11:00.

CHRISTIAN SCIENCE SERVICES

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 25.

The Golden Text is: "I pray God your whole spirit and soul and body be preserved blameless unto the coming of our Lord Jesus Christ" (I Thessalonians 5:23.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: For we know that if our earthly house of this tabernacle were dissolved, we have a building of God, an house not made with hands, eternal in the heavens." (II Corinthians 5:1.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The material body and mind are temporal but the real man is spiritual and eternal." (Page 302.)

ROOSEVELT ON EVE OF MOMENTOUS DECISION

President Roosevelt was on the threshold of a momentous decision Monday as Washington openly predicted war with Germany.

The President, due to speak on Tuesday night, May 27th, it was said may deliver an important address before that hour, it was said in Washington, Monday at noon.

According to un-official talk in the capital the administration has come to realize that the Lease-Lend Bill will not do the job. This newspaper said as much a long time before the bill was enacted.

There was no longer a question of convoys, although no step in that direction has been taken. According to information available, open war may be the fate of this country within two weeks or less.

A news broadcast at noon said that President Roosevelt had indicated recognition of General Chas. DeGaulle, as leader of the French people. If this is confirmed it means that America will salvage whatever is possible of French manpower and supply them. It would mean the United States could deal with a French government not dominated by Germany.

This of course would mean the recall of Admiral Leahy as Ambassador to Vichy.

General DeGaulle Monday called upon the French people to revolt.

Another overshadowing event was the loss of an American passenger ship in the South Atlantic with 300 aboard, 120 of them believed to be Americans. The sinking of the vessel was still not explained.

Germany has agreed to release 100,000 French prisoners. Berlin said France will defend herself against any nation. It was strange talk. The only nation that France has reason to fight is Germany.

If she is hepless against Germany how can she fight America? That was the question that bobbed up and brought the belief that France may join Germany.

The war in Irak and Syria was increasing in intensity.

threshold of a momentous decision, is running considerably behind the American people. If there has been anything apparent about the country's foreign policy, it has been a long standing conviction that this country has been hesitating over long.

Anything short of an open declaration, a bold stroke, action, will severely dissappoint the American people. Mr. Roosevelt is at the cross roads.

A couple of bad eggs...
but why blame the hen?

A bad egg *does* turn up once in a while ... but that's not a sensible reason for destroying all the good eggs ... or for taking it out on the hen.

Beer retailing in America is something like that. The vast majority of beer retail establishments are clean, law-abiding, wholesome places. And still there may be a few "bad egg" retailers who violate the law or permit anti-social conditions.

The brewing industry wants these undesirables eliminated entirely ... to protect *your* right to drink good beer ... and *our* right to make it.

And also to protect the many benefits brought by the beer industry to Texas ... such as the 31,165 jobs created...and beer's $22,076,182 annual payroll. Beer contributed $2,273,968.64 last year in taxes to help pay the cost of government in this state.

You can help us in our program of law enforcement, if you will, by (1) patronizing only the legal and reputable places that sell beer and (2) by reporting any abuses to the proper law enforcement authorities.

GERMANS SAY THEY ARE MAKING HEADWAY

Crete, principal island of the chain which divides the Greek Archipelago from the eastern basis of the Mediteranean sea and vital to the defense of the Suez Canal, was under heavy attack by German army units flown over in planes and by glider.

In the House of Commons in London, Winston Churchill, said that about 3000 of the parachute troops had been rouned up and shot.

Germany promised dire reprisals.

The Germans claimed that some successes had been made in the fight with some strategic points taken. The British said the situation was well in hand.

At dawn on Wednesday the Germans began to fly into the Island as they had done on the previous day when the attack opened.

The battle was believed to be the opening phase of a German thrust to wrest the Southeastern Mediterranean from the British.

The prize optimist of the day was a British newspaper calling for a quick victory.

The British press has taken up the cry for American entry into the war. Nothing less, they say will do.

Iceland became a free state, breaking with the mother country, Denmark. The United States took over Greenland several weeks ago. Not far way is Iceland.

The New Deal had at last reached France. Sixteen million Frenchmen will now get free American bread. It was regarded as a diplomatic drive by America to keep Frenchmen friendly.

The Mediterranean crisis will not occupy the headlines until the British have been pushed out of the sea. Then will follow a few days respite and another crisis.

President Roosevelt gives the nation a fireside chat a week from tonight. What will the President say?

Wallace Dunham of Camp Bowie visited in Cameron over the week end with relatives.

Government Jobs Now Open Through The Civil Service

Many opportunities are now offered for profitable employment by the federal government through civil service jobs. The government is greatly in need of skilled workers, according to Joe G. Matula, secretary for the local civil service commission.

Here are a list of jobs in addition to those mentioned yesterday:

Shop repair men, radio men, metal smiths machinists, are wanted in great numbers at Corpus Christi, Brownwood, San Angelo, Fort Sam Houston, Ducan and Dodd fields.

Blacksmiths, ship fitters, welders, molders, machinists sheet metal workers and some eight or ten other assorted trades are wanted immediately for Pearl Harbor in Hawaii. These men are wanted not only in skilled classes, said Mr. Matula, but in unskilled as well.

Applicants will be physically examined here and fingerprinted and all papers properly executed will be sent to New Orleans. Transportation is furnished to San Francisco and from that point the Navy gives transportation to Pearl Harbor. Applicants are urged to see Mr. Matula at Cameron post office as the need is urgent.

. . . so they invaded Rome—the Barbarians hungered for land!

Four hundred years the Roman Empire flourished; centuries of luxury had softened them, and their security had already begun to ebb when the Vandals swept over the Alps to feast upon the excesses which to them had become fabulous. But it was more than lustful greed that drew the northern hordes to sunny Italy—it was the fudamental hunger for LAND, the same hunger that has motivated man throughout the ages. . . . .

LAND IS WEALTH

The desire to own land is basic in man—no commodity, no other form of wealth, serves to supply man with the spiritual satisfaction that comes of being a "landowner." Invest your savings in real estate—know the pride of owning property.
